OUR SERVICES

- Supply and Installation of all Refrigerant System
- Energy Conservation Solution
- Electrical work for Power Plants
- Cup Lock Scaffolding Erection
- Structural Fabrication
- Man Power Supply
- Horticulture Work
- Supply of Industrial and Mechanical Goods

SANDTRAP LOUVRE

For the protection of air conditioning plants in areas exposed to extreme levels of industrial pollution we provide conservation parts. These parts has a degree of separation of sand and large dust particles, even in cases of high dust concentrations. The vertically arranged sections and holes for sand drainage ensure the parts are self cleaning and maintenance-free. The Energy Conservation Part is designed to separate large particles at low air velocities, thus avoiding excessive dust loading on conventional plant filters. It is not intended as a substitute for conventional supply air filtration plant.

Materials

Basic construction either aluminium (AWSL) or galvanised steel (WSL). Bird screen galvanized steel mesh 12 x 12 x 1 mm. Standard finish AWSL mill, WSL galvanized or powder coated RAL RAL 9010 25% gloss, other RAL colours and of gloss finish on request.

Water Cooler, AC and Pre Post Night Vision Light

P&V (Pressure and Ventilation System)

Ventilation System

In our company the basic strategy for system design is to offer various cost-effective options with reliability to function and be specific to :-

- 1) Realistic assessment of air-flow for effective dilution of noxious fumes and for human comfort.
- 2) Ways and means to achieve reduced system pressure vis-consumption.
- 3) Selection of appropriate combination of size/shape of ducts and ventilation Fans.
- 4) Provisioning of required accessories to formulate a comprehensive package of ventilation system for the entire life of project.

We have been supplying Ventilation Fans to all Major Mining Project, Hydroelectric Power Projects, Metro Projects, Road Tunneling Projects, Lift Irrigation Project and Railway Tunneling Projects.

Pre Post Solution Lighting is one of the leading providers for lighting solutions and applications both for Industrial and domestic consumer markets, transforming how lighting is used to enhance the human experience in the places where people live and work. Whether at home, on the road, in the city, shopping, at work or at school, we create lighting solutions which transpose the environments and create experiences.
